DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or make obvious the claimed vehicle immobilization apparatus. Specifically, the prior art fails to show a vehicle immobilization apparatus having forward and rear chocks, where both chocks have both left and right channels, a tire contact surface on each chock which will contact a tire when the respective left and right channels of the chocks are engaged, and a locking means which is interconnected to at least one of the channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-20 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. D'Alessio, Snook, Markegard et al, Barrett, Hampton, Mast et al, and Sax et al are cited as being of interest since they disclose vehicle tire chocks.
